RiverWare Galaxy to Qt GUI Port Project

Modules ported from Oct. 2006 to Oct. 2007

The following RiverWare GUI modules were ported from a Galaxy implementation to a Qt3 implementation over the last fiscal year (06-07).

1. Simulation and Rulebased Simulation Run Analysis Dialogs [Nov. '06 to Jan. '07].
2. Exchange Balance Dialog [May and June '07]
3. File Choosers, with added "recent files" and history features, plus supporting saving and loading option dialogs [July '07]
4. Unit Converter [August '07]
5. Snapshot Manager [early Oct. 2007]

Remaining Galaxy implemented GUI modules soon to be ported to Qt3:

1. SubBasin Manager
2. Diagnostics Manager / Configuration Dialogs
3. Optimization Parameter Sub-Dialog
4. Exchange Manager and Configuration Dialog
5. Edit Link Dialog
6. MultiObject Method Selector
7. Synchronization Control Dialog
